RE: Letter of Support for Mr. Dario Echeverry's EB-1 Extraordinary Ability Alien Petition

Dear Director:

It is with great pleasure and on my best interest that I write this letter on behalf of Dario Echeverry's application for an Immigrant Visa based on his Extraordinary Ability in Athletics As a Kart racer. Dario is currently ranked number one nationally in the Easy Kart 125cc Heavy division and one of the best drivers in the field.

I am the former editor of Sports Magazine, Director of Automundo Magazine for several years and El Gráfico, the oldest sport magazine in the world.

I have been involved in Motorsports for approximately 30 years as a journalist and have received national and international awards for my automotive writing (1987 Best Motorsport Writer U.S.A). I'm also an experienced and well established road tester, a former Air Force Pilot (CAP-USAF), retired airline captain, and now, Executive Director of InfoAuto USA, President of the Hispanic Automotive Media Organization and special commentator for CVC International Radio and CNN.

I have had the opportunity to personally watch Dario in several races throughout the nation and in my experience, I recognize a driver of extraordinary talent. Dario is one of those racers and he has been subject of several of my articles and editorials.

Dario Echeverry is also internationally well known as an extraordinarily talented kart racer on the kart circuit. He takes pride in his racing and approaches the sport of kart racing with great enthusiasm. I respectfully urge you to grant the pending petition before you.

Very truly yours,

Juan Carlos Maimone
Editor in Chief and CEO ICG Inc.
